

new@forster

Neue breite Profile für Forster fuego light EI60

Nouveaux profilés larges pour Forster fuego light EI60

New wide profiles for forster fuego light EI60

- Fertige Profile in Zink Magnesium
– keine Einzelfertigung mehr
- Ideal für alternative Schlösser mit hohen Dornmassen
- 90° Öffnung von Türen möglich
– keine Kollision des Türdrückers mit der Wand.
- Mehr Platz für aufgesetzte Türschliesser und Drehtürantriebe
- Brandschutznachweise nach EN 1634-1
- Massgebend sind ausschliesslich die für Ihr Land gültigen Zulassungen.
- Profilés finis en qualité zinc magnésium
– les profils ne seront plus fabriqués à la demande.
- Idéal pour les serrures alternatives avec des positions de canons non standard.
- Ouverture des portes à 90° possible
– Pas de collision entre la poignée et le mur.
- Plus d'espace pour les fermes-portes et les taquets d'entraînement en applique.
- Conformité coupe-feu EN 1634-1
- En conséquence, nous vous demandons de vous reporter aux procès-verbaux de classement en cours de validité dans votre pays.
- Finished profiles in zinc magnesium
– no more single-unit production
- Ideal for alternative locks with high backsets
- Doors can be opened 90°
– handle does not come into contact with the wall
- More space for attached door closers and revolving door drives
- Fire safety certificate EN 1634-1
- Only the certificates valid in your country are relevant. Please check with your specific countries representatives.
